UJI

PARTICIPANTS

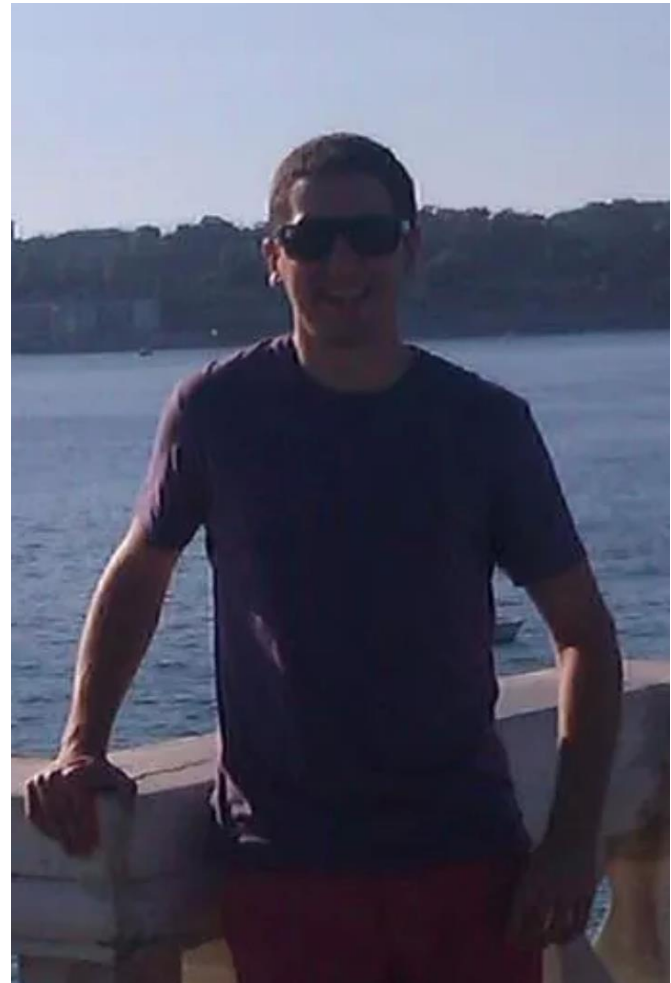

UJI STUDENTS

- Name: FRANCISCO VIDAN
- Age: 23 years old
- Town: CABANES
- Studies: Degree in Industrial Technology Engineering

UJI STUDENTS

- Name: SALVA BARREDA
- Age: 22 years old
- Town: BENASSAL
- Studies: Degree in Mechanical Engineering

UJI STUDENTS

- Name: INÉS TORÁN
- Age: 21 years old
- Town: CASTELLÓN de la PLANA
- Studies: Degree in Agrifood and Rural Engineering

UJI STUDENTS

- Name: ESTHER BARREDA
- Age: 22 years old
- Town: CASTELLÓN de la PLANA
- Studies: Degree in Industrial Technology Engineering

UJI STUDENTS

- Name: ELENA FORCADA
- Age: 20 years old
- Town: BORRIOL
- Studies: Degree in Industrial Technology Engineering

UJI STUDENTS

- Name: JAVIER MONSERRAT
- Age: 23 years old
- Town: LA MATA
- Studies: Degree in Industrial Technology Engineering

UJI STUDENTS

- Name: ALBA MARTÍNEZ
- Age: 23 years old
- Town: PUERTO DE SAGUNTO
- Studies: Degree in Agrifood and Rural Engineering

UJI STUDENTS

- Name: DAMIÁN BALFAGÓN
- Age: 22 years old
- Town: VILA-REAL
- Studies: Degree in Agrifood and Rural Engineering

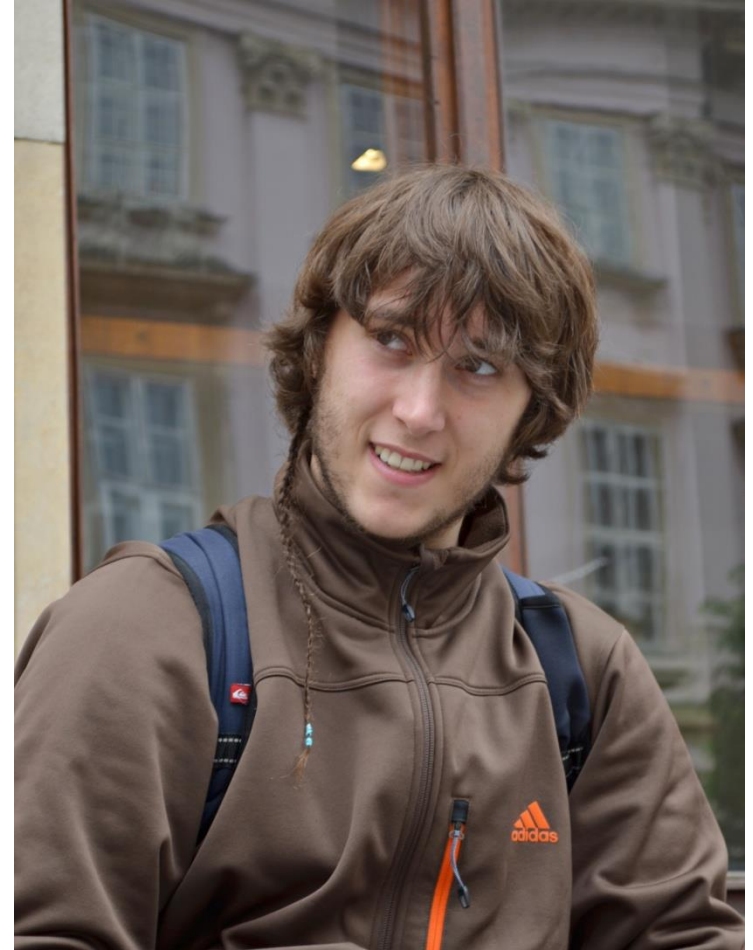

UJI STUDENTS

- Name: JORGE MARCO
- Age: 21 years old
- Town: CASTELLÓN de la PLANA
- Studies: Degree in Agrifood and Rural Engineering

UJI STUDENTS

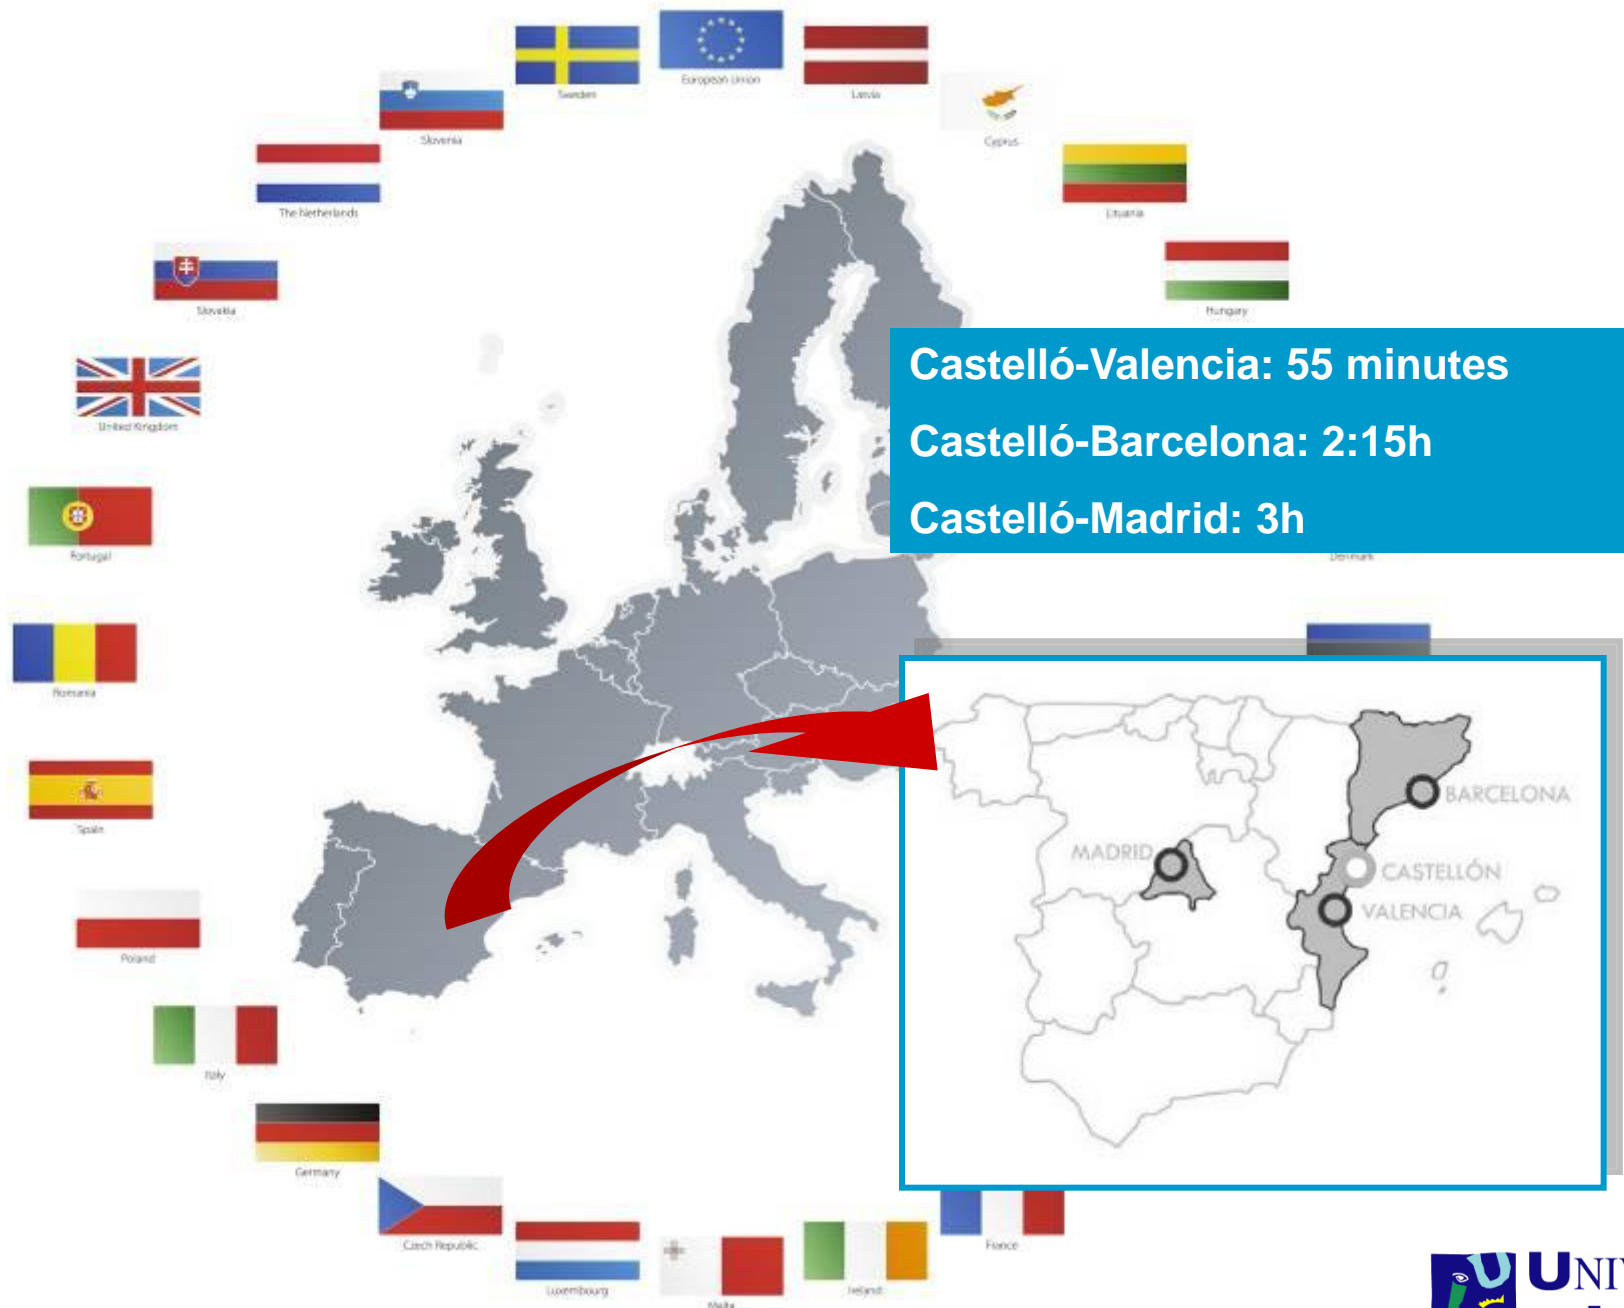

- Name: HÈCTOR BAENA
- Age: 22 years old
- Town: CASTELLÓN de la PLANA
- Studies: Degree in Agrifood and Rural Engineering

- The Universitat Jaume I in Castelló (UJI) is a public higher education and research centre, founded in 1991.
- The UJI has more than 1290 lecturers and approximately 14,000 students.

- Castelló de la Plana

Castelló is the capital of the province of the same name, a quiet, accessible Mediterranean city of nearly 200,000 inhabitants in which you can move from one end to another in minutes.

Castelló is situated 65 km north of Valencia and 285 km south of Barcelona.

It is a pleasant, sunlit town lying between the Desert de les Palmes hills and the Mediterranean Sea with a pleasant temperature of around 27 °C in the summer and 18 °C in the winter.

- **Surroundings**

The province of Castelló is a blend of seaside and mountain landscapes. Along the coast, the landscape combines large areas of orange groves with 120 km of excellent beaches.

Inland, the scenery changes dramatically. The province of Castelló is the second most mountainous in Spain and its inland areas have a rich cultural, historical and landscape heritage.

THE CAMPUS

- **The campus in the city**

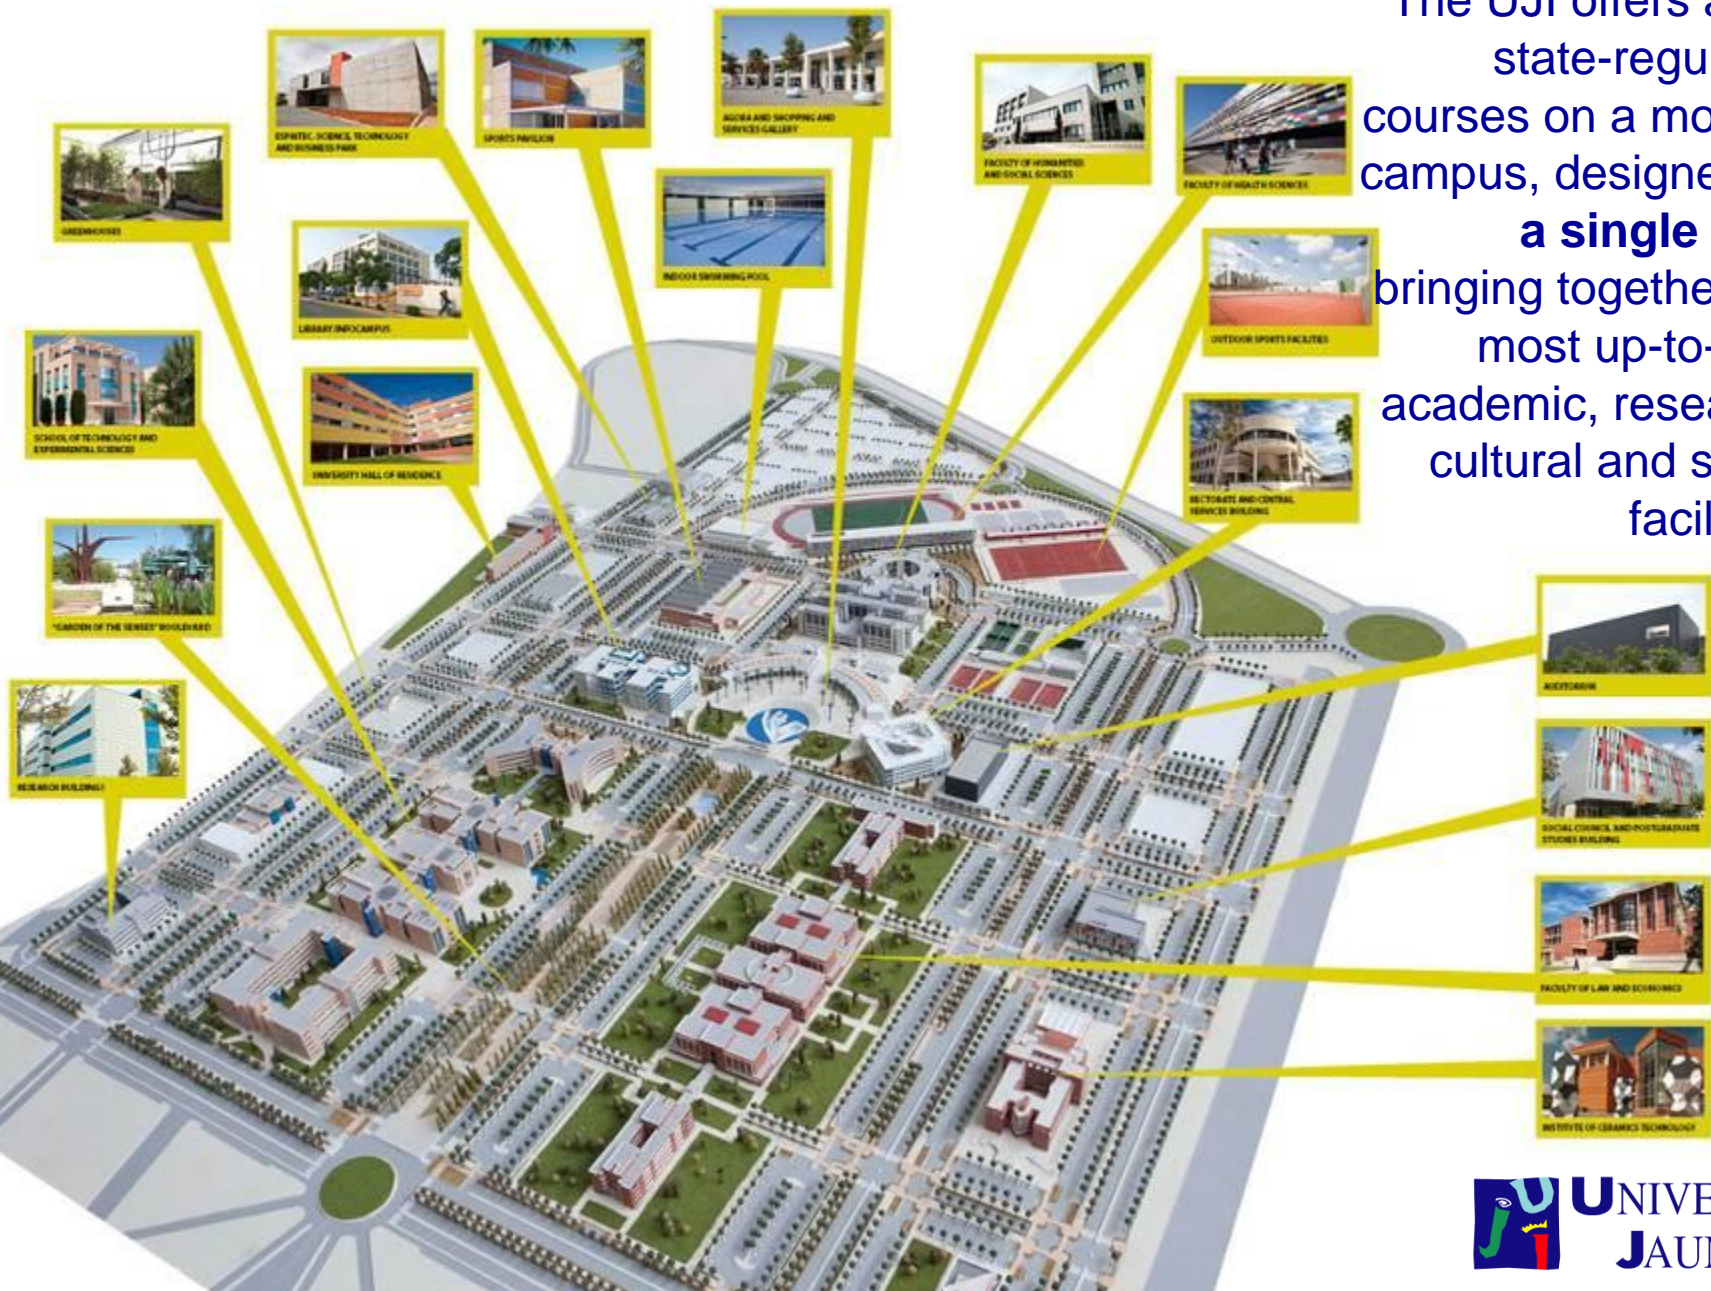

The campus is located very near the city centre and is less than 5 minutes from the bus station and the train station for local and long distance connections.

The city's structure and size allow easy movement from one place to another on foot, by bicycle, by bus network or by TRAM (ecological city transport).

• The UJI, a single-campus University

The UJI offers all its state-regulated courses on a modern campus, designed as **a single unit**, bringing together the most up-to-date academic, research, cultural and social facilities.

The campus, covering 176,000 m² has 4 faculties and many research and management buildings designed around a central 13,000 m² garden area.

It is a green, sustainable campus that promotes the use of renewable energies, with recycling points for the recovery of waste materials.

- **Official languages**

The UJI's mother tongue is Catalan, but both Catalan and Spanish are used in academic teaching.

Teaching in English

Three high performance student groups, called ARA, are taught in English in the degrees of Business, Engineering in Industrial Technologies and Psychology.

Five master's degrees are taught entirely in English.

Outstanding services

Library

Located in one building, the library has a range of spaces and equipment adapted to different modes of study and research. Students enrolled in the UJI have access to almost 300,000 volumes in the library, open 24 hours a day during exam periods and including:

- Interlibrary loan
- European Documentation Centre
- The Self-Access Language Centre (CAL)

The CAL offers an excellent opportunity for students to develop their own skills in the study of languages.

• Sports Centre

The Universitat Jaume I has an area of over 95,000 m² of sports facilities: outdoor spaces, indoor pool, sports pavilion and a rackets area (tennis, paddle).

The sports service offers over 80 different sports, 75% of them on the campus at a highly reduced price for students.

The centre also organises university championships and makes its facilities and sports equipment available to all the university community.

• New technologies

The UJI is a pioneer in the use of new technologies: 100% multimedia classrooms, a ratio of 1 computer for every 2 students, **free wi-fi access** on campus, numerous computer labs, loan of laptops and video cameras, etc.

Multimedia classrooms

The classrooms on the UJI campus are equipped with the latest technology for teaching. Lecturers can use audiovisual equipment and media to facilitate the teaching-learning process.

**HIGHER QUALITY IN
EDUCATION**

**RESEARCH AND
INNOVATION**

- **Higher quality in education**

The UJI's declaration on Quality Policies states that its objective is “to be an excellent university in the fields of teaching, research and management, in accordance with the philosophy of total quality and, more specifically, in agreement with the criteria established by the European Foundation for Quality Management”.

- European Gold Seal of Excellence 500+ (EFQM) 2010
- Quality Management System UNE-EN-ISO 9001:2000
- The library is certified as complying with the ISO 9001:2000 standard and was the first Spanish Public Library to receive certification from AENOR (Spanish Association for Standardization and Certification) together with the Sports Service.

• Research projects

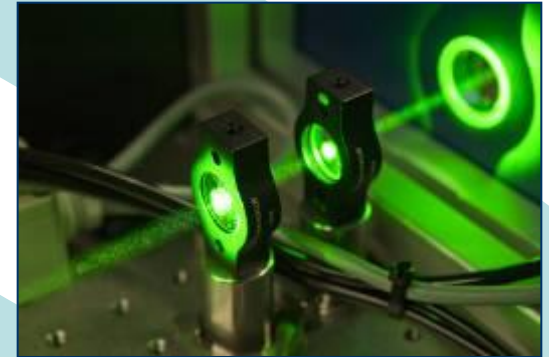

The UJI is the sixth-ranked Spanish university for R&D projects per tenured academic staff member.

The UJI has 159 research groups with a high scientific output: 288 research projects.

Research is promoted through the implementation of world-leading R&D programmes: centers such as the ICT, the ESPAITEC.

Research & Development

The UJI is among the first universities in Spain in obtaining external resources for research and development per teacher.

ACADEMIC INFORMATION

2013-2014

• Undergraduate courses 2013 / 2014

Social and Legal Sciences

Business Administration
Criminology and Security
Audiovisual Communication
Law
Economics
Finance and Accounting
Early Childhood Education
Primary Education
Journalism
Advertising and Public Relations
Labour Relations and Human Resources
Tourism
Public Management and Administration

Arts and Humanities

English Studies
History and Heritage
Humanities: Intercultural Studies
Translation and Interpreting

Engineering and Architecture

Agri-food and Rural Environment Engineering

Industrial Design and Product Development Engineering

Electrical Engineering

Building Engineering

Engineering in Industrial Technologies

Computer Engineering

Mechanical Engineering

Chemical Engineering

Computational Mathematics

Video Game Design and Development

Health Sciences

Nursing

Medicine

Psychology

Sciences

Chemistry

• Undergraduate courses 2013 / 2014

International Double Degrees

EURINSA and EURUJI:

2 year European First Cycle in Industrial Engineering and are both studied at the INSA in Lyon, France and at the UJI.

The following double degree agreements have been signed:

Business Administration and Management / Business Studies (UJI) &

Laurea un Economia Aziendale, Università degli Studi di Modena e Reggio Emilia, Italy.

Bachelor of International Business and Management, Hochschule Bochum, Germany.

Licence/master in Sciences Economiques et Gestion, Université Lumière Lyon 2, France

Laurea in Economia e Marketing Internazionale, Facoltà di Economia de la Università degli Studi di Mode

Building Engineering (UJI) &

Bachelor of Architectural Technology and Construction Management. VIA University College, Denmark.

Master's degrees

The UJI offers 40 master's degrees in the areas of humanities and social sciences, law and business, health sciences and technology and experimental sciences.

All are adapted to the new European Higher Education Area (EHEA), leading to the official master and providing access to doctoral programmes.

Information about Vistabella del Maestrat

Localitation

Vistabella del Maestrat is located to the West of the province of Castellón, is one of the villages more raised of the whole province and part of its territory is a nature reserve.

Vistabella has an approximate population of 400 persons. Its economic activity is based on the agriculture and the development of its rural environment. It has various civil and religious monuments.
